

Adhesive mat firmly adsorbed and removed the dirt of the sole by stepping

※The photo is image

Step mat™

- Soft gel is familiar with the uneven portion of the sole, and catch a small dirt and dust firmly.
- Urethane gel adsorbs dust by self-adhesive, and does not let scattering.
- It is to clean the sole just step on.
- The dirt of mat can be cleaned simply by wiping.
- It dose not emit extra garbage because you can use repeatedly.
- Truck also pass along smoothly by the slope.

Most suitable in front of clean room

Truck also pass along smoothly by the slope

You can use in front of the door

It is suitable for contamination-control at place that you do not want to carry any dust and dirt, for example semiconductor, precision equipment manufacturing, printing, food, electronics factory, and so on

step-mat EX is an adhesive mat of new type using self-adhesive not to need peel off the film.

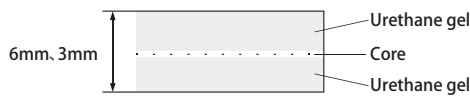

Removal of garbage and dust

Fixed • Cleat • Antivibration

Protect • Buffer • Shock absorption

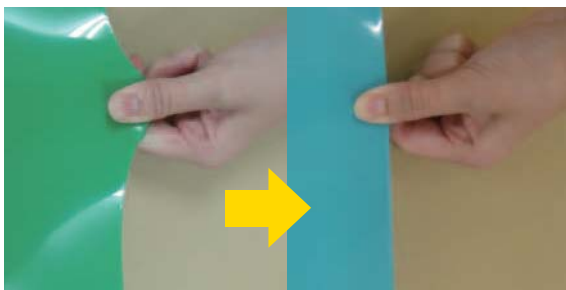

Molding resin
(Hitohada gel undiluted solution)

Strength increased by placing the core material.

It is stuck to the unevenness of the wheels and shoes by soft elasticity of the thick gel layer, and catches efficiently corpuscles such as small dust.

It is hard to stretch by putting the core.

Put into the Core, strength is up

It is hard to stretch and easy to treat to increase strength when paste or peel off by putting a non-woven fabric as the core.

Also available conductive type.

There is the product that conduction of type that can be used in anti-static zone.
Conductivity: $4.4 \times 10^8 \Omega/\square$ 、Color: White

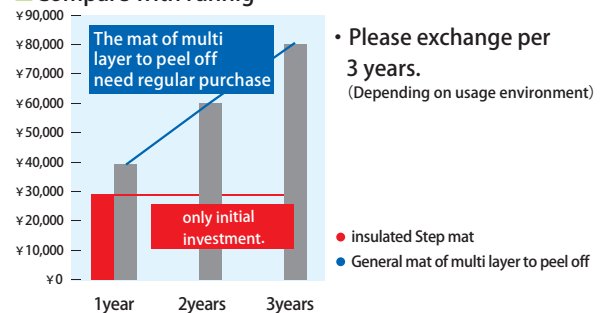

Simple maintenance

You can use repeatedly by wiping.

You can use repeatedly by wiping.

Compare with running

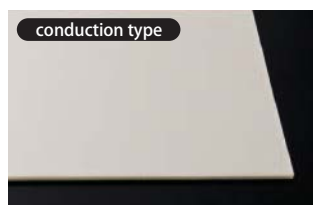

No need to buy regularly so cost performance is excellent because you can use repeatedly.

Can use this at entrance of factory.

Slim type 3mm <Antimicrobial formulation>

Part number	Size (mm)
MAT3-5090	500×900×3
MAT3-5090E (conduction type/white)	500×900×3

※In the case of rubber, a plasticizer moves under mat

easy to open the door

- Please use this at entrance of factory.
- It is easy to ride cart because this is slim type and low bump sheet.

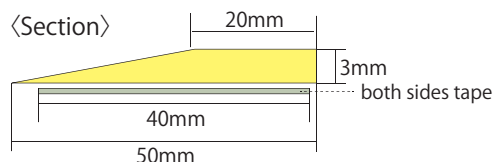

Can set up easy slope and low cost.

Slope for step mat (flat type) 3mm

Part number	Size (mm)
MAT3-SL6	600×50×3
MAT3-SL9	900×50×3

※Both sides tape type

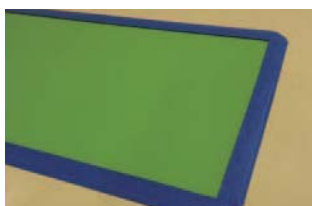

Close size for undermat.

Slim type 3mm for undermat <Antimicrobial formulation>

part number	Size (mm)
MAT3-4590	450×895×3
UMAT-4590	550×1000 (total length)
MAT3-6090	450×600×3 (2 sheet)
UMAT-6090	690×990 (total length)

Get dirty soles clean by soft elasticity to 6mm step mat

Normal type 6mm 〈Antimicrobial formulation〉

Part number	Size (mm)
MAT6-5390	530×900×6
MAT6-5390E (conduction type/white)	530×900×6

※Size is Include slope length
 ※It may be unable to use depending on the quality of the material of a tire

add a slope

Get dirty soles and tire clean by high elasticity to 9mm step mat.

Wide type 9mm 〈Antimicrobial formulation〉

Part number	Size (mm)
MAT9-9012-00	900×1200×9
MAT9-9012-01	900×1200×9
MAT9-9012-02	900×1200×9
MAT9-9012-03	900×1200×9
MAT9-9012-04	900×1200×9

※It may be unable to use depending on the quality of the material of a tire.

add a slope

You can choose 4 color variation if you want differ color.
 (Dark gray, Gray, Brown, Beige)
