

ECOSTAT®-DF CENTRA-NV

Rugged Polyamide flooring material on rolls, specially designed for the electronic industry.

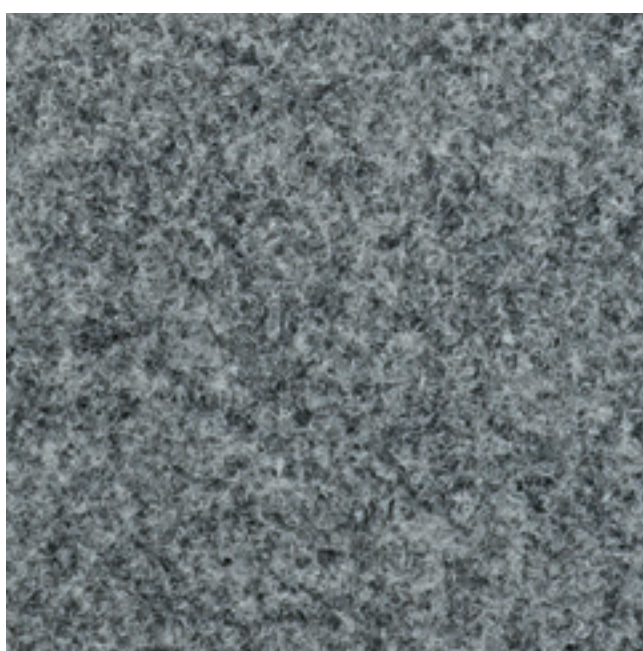

Constant electrical properties, using a special conductive glue, Thomsit T412 and a conductive finish, Thomsit R762.

- Electrostatic dissipative Polyamide flooring
- Easy maintenance
- 100 % Polyamide with doric® fiber
- High abrasion resistance
- Available on rolls

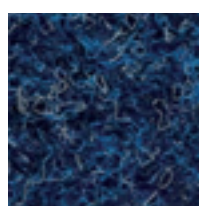

User's instructions

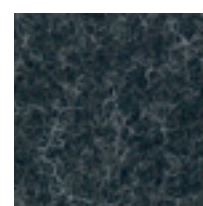

Typical resistance to ground $R_G = 10^6 - 10^8$ ohm

light grey

royal blue

anthracite

| Part Nr. | Sizes | Colour |
|----------------|-------------------|------------|
| 1806.HG | 2,0 m x 25 - 35 m | light grey |
| 1806.RB | 2,0 m x 25 - 35 m | royal blue |
| 1806.AZ | 2,0 m x 25 - 35 m | anthracite |

Other colours on request!

CONDUCTIVE FINISH AND ADHESIVE FOR CENTRA NV

Part Nr. Pail

1280.R762 10 kg

Alternative to copper band

Consumption: app. 150 g/m²

Part Nr. Pail

1280.T412 14 kg

For Ecostat®-DF CENTRA-NV
Polyamide

Consumption: app. 350 g/m²
